Notes: Dash indicates that a rate is not computed when a county's population is less than 100,000 in a given year.  
 Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 27).  
 The FBI and California Crime Indexes have been temporarily suspended as efforts continue to redefine those measurements.

<sup>1</sup>In 2003, larceny-theft over \$400 was included in the property crime category to give a more representative depiction of crime in California.
